Please check the OFSC Interactive Guide under the Trail Status tab or the OFSC at <https://ofsc.evtrails.com/#> for latest trail conditions.

**As the saying goes, all good things must come to an end. This is to inform all our dedicated riders that as of this morning all NRSA trails are now listed as closed for the 2020 season. To all of you and also the many landowners, businesses, towns and the club volunteers, grooming team, trail maintenance, fundraising and the executive, we wouldn't be one of the premier snowmobiling destinations without all of your efforts.**

**Stay safe and healthy during the months ahead. Looking forward to seeing everyone in the next snowmobiling season.**

Our trail system is situated in the northern region of the Ottawa Valley nestled between Algonquin Park to the west & the Ottawa River to the east. Snowmobilers have trail access to the Town of Laurentian Hills & Town of Deep River for food, lodging & gas.

**The club has 3 staging areas for parking & unloading your sleds, please click above on the ABOUT tab to view staging area locations & GPS coordinates.**

Our trails are a combination of forest roads, trails & pipeline where you have a great opportunity to see some wildlife. **Please view our map under the ABOUT tab** & we hope to see you on our trails this winter!
